6

So what did we learn about what works?

- + Podcast DNA
- + Podcast format
- + Technical stuff

See: <https://eucci.eu/podcast/>

7

Podcast DNA

- + **Goal and target audience:** think about the tone and appeal to students.
- + **Its place in the course:** replace readings? Lectures? Assignments.
- + **Rhythm:** how often do you want to release episodes?
- + **Format is very important**

8

Podcast format

- + **Script:** good script makes producing easier and podcasts much better
- + **Length:** loooooong episodes can be discouraging
- + **Character building:** building personal rapport with the listener can work well, but up to your personal comfort!
- + **Desired quality level:** Audio quality is very important but academic quality even more so

9

Technical stuff

- + **Recording:** Smartphone-as-microphone, cheap USB-microphones, more expensive microphones? Online tools?
- + **Editing:** funds for an external editor? Or DIY using software? How edited do you want it to be?
- + **Publishing:** Webhosting with RSS; add to Spotify and Apple podcast libraries
- + **Social media:** Spread the word!

10

3 key take aways

- + **Lessons learned 1.** Technically, making a podcast is less complicated than you think
- + **Lessons learned 2:** Podcast need to be edited. This is a lot of work
- + **Lessons learned 3.** A good script makes producing easier and podcasts much better
