

# TEACHER IN EDUCATION IN DIGITAL & MEDIA LITERACY - EFFECTIVE CONTINUING PROFESSIONAL DEVELOPMENT

M&L SEMINAR || 23 Mars 2022

Session moderated by [Sally Reynolds](#), Media & Learning Association, Belgium.

The job of keeping the professional skills of working teachers up-to-date is managed in a variety of different ways in Europe. Dedicated short courses, mentoring, summer schools, certified programmes are just some of the approaches adopted by different educational authorities and school managers. Ensuring access to Continuing Professional Development (CPD) in the area of digital and media literacy is just the latest in the many demands that are made for upskilling teachers, one that many people argue does not yet receive the attention and resources that it requires.
