2020 - Covid & Media and Information Literacy (MIL)

Pandemic - misinformation becomes viral.

To curb the information disorder, a vaccine free of adverse side effects was proposed: MIL.

Media literacy occupies the headlines as “the ideal solution”: promote media education to prepare citizens to defend themselves against hoaxes.

Media litera.... whaaaatttt ?

- **2021** - Current university programs for teachers in Early Childhood and Primary Education, as well as the Master's in Teaching of Compulsory Secondary Education and Professional Training and Language Teaching reflect a **glaring absence of subjects related to the study of educational technologies, with media education almost non-existent.**
- Media literacy, media education, digital education, educomunicación, transmedia education...

MIL for in-service teachers: a cross-subject

- Main legal Frameworks: 2011 - [First MIL Curricula](#). 2020 - [LOMLOE](#). 2022 - [Ley General de la Comunicación Audiovisual](#) + [Intef framework](#).
- Big differences between Spanish Regions.
- All the documents confirm the necessity of improving MIL presence as a cross-subject. The problem: The lack of a culture of transversality and interdisciplinarity in Spanish schools and Universities.

MIL in Spain: work in progress

- Teachers of all levels: lack of solid and structured program-specific training.
- Improve MIL's core: understand all kinds of media, improve critical thinking and develop empowered creative ways of learning.
- Secondary School teachers: More training, more resources to use easily, opportunities for teachers to get together and to share experiences.
- Primary School teachers (esp. 8-12 years): Almost non-existent training and resources.

MALDITA EDUCA

- Maldita Educa tools:
[MIL Resource finder](#),
[Digital Escape room](#),
[Whatsapp micro course](#),
among others.
- Strategy: Training of trainers
(teachers of all levels)
- Right now: developing
material for primary school.
