The Language of Personalised Learning

April 2024

Can AI personalise learning?

1) Personalised learning paths

2) Content customisation

3) Enhance accessibility

Perceptions of AI in higher education

68%

Of higher education leaders believe AI tools can improve accessibility for students with disabilities (Educause, 2024).

79%

Of higher education leaders believe AI tools are already impacting technology they're using (Educause, 2024).

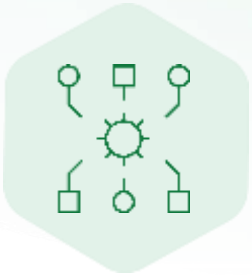
Bridging The Learning Divide
with Smarter Classroom Recording

"I've had faculty ask if AI can help evaluate if lectures are effective or can identify areas where students need to go back and review."

James Copeland,
Director of Classroom Technology,
Middle Tennessee State University

Panopto's **user-centric** AI approach

It's not about the tech–it's all about you.



Not AI for **AI's Sake**

- Customers choose the AI features they want enabled.
- Ensure alignment with institutional ethics, guidance, and goals.

Enhance core **user experiences**

- Drive learning outcomes
- Personalise interactions
- Simplify admin. and creator workflows

Keep it **compliant**

- Process user data for AI features in secure cloud environments
- Remain compliant with regional and local requirements

The future of personalised learning for students and faculty with Panopto Access AI.

PANOPTO ACCESS AI:

Feature Suite

Content **Summarisation**

HIgh-level content summaries for context-rich learning and discovery.

Automatic **Language Detection**

Automatic language detection helps admin. manage multilingual content for a global campus.

Enhanced **Smart Chapters**

Transcripts highlight key sections to learners based on words spoken.

Panopto expands global reach with Catalan, Galician, and Euskera languages

"By combining video with AI-powered captioning and transcription, Panopto is dedicated to offering accessible education to speakers from all regions on the Iberian peninsula."

Jason Beem,
CEO, Panopto

- 20+ global languages
- High-quality ASR transcriptions and captioning
- Local regional partnerships
