HYBRID TRAINING

HYBRID TRAINING

# DEFINITION

---

- A live classroom or training room where the participant cohort are a mixture of those physically present and remote
- Led by an instructor/host physically present or remote
- Where the remote participants are attending separately from their own devices or from shared remote spaces

# OBJECTIVE

---

Enable hybrid delivery with **no decrease** in KPI's  
over pure in room delivery

# KEY CONSIDERATION

---

Creating the **adoption process**  
for seamless integration and  
usage.

# HYBRID LEARNING FUNDAMENTALS

---

## SPATIAL AUDIO

Quickly identify & locate attendees to engage face-to-face.

## POLLS & QUIZZES

Get instant feedback by assessing engagement and learning outcomes during a session.

## PERSPECTIVE CAMERAS

Give learners their own personal view of the room for higher levels of participation.

## HYBRID BREAKOUT GROUPS

Provide space for discussion between online and in-person learners for better understanding.

# HYBRID LEARNING FUNDAMENTALS

---

## INTERACTIVE WHITEBOARD

Share content that everyone can view and annotate for individual or group collaboration.

## CONTENT SHARING

Bring sessions to life by sharing content to the group from any device including AR/VR, holograms or video streams.

## REMOTE PRESENTER

Flexibility to facilitate sessions from anywhere in the world with full control and visibility over all attendees.

## CONNECTED SPACES

Connect multiple rooms together to create one dynamic learning space.

# CUSTOMER USE CASES

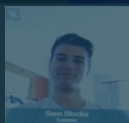

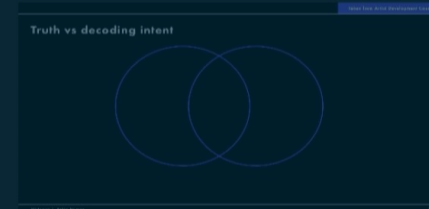

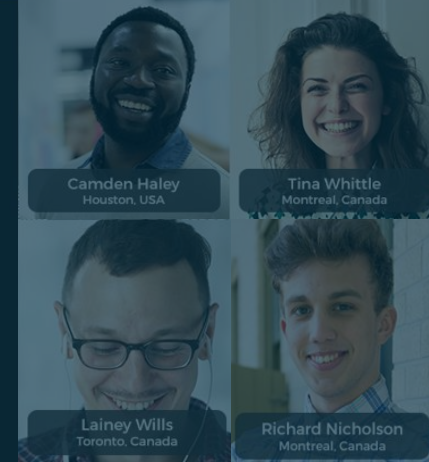

Create a hybrid learning space for when attendees are unable to travel

Gives instructors freedom to host

“In the last year I’ve hosted nearly 200 online events, and this is by far my favourite because of the great connection you get with the audience... you really feel like you’re in the room with everyone.”

# AIRBUS

**AIRBUS**

Maximise the efficiency of their trainers and meet customer needs

Reduce need for travel to align with sustainability goals

“OneRoom has delivered spectacularly on its user experience promise. It adds a layer of interaction that platforms like Teams and Zoom so far lack, particularly with directional audio and breakout rooms.”

Simultaneous  
teaching

“Using X2O OneRoom is the closest I’ve come to being able to recreate the experience of being in a classroom with my students. The platform facilitates the rich verbal and non-verbal interactions necessary to enable me to teach and the students to learn, with the bonus of giving us access to a host of digital learning tools.”
