

Scalable Immersive Environments: empowering Teachers to understand their Hybrid Learning Spaces

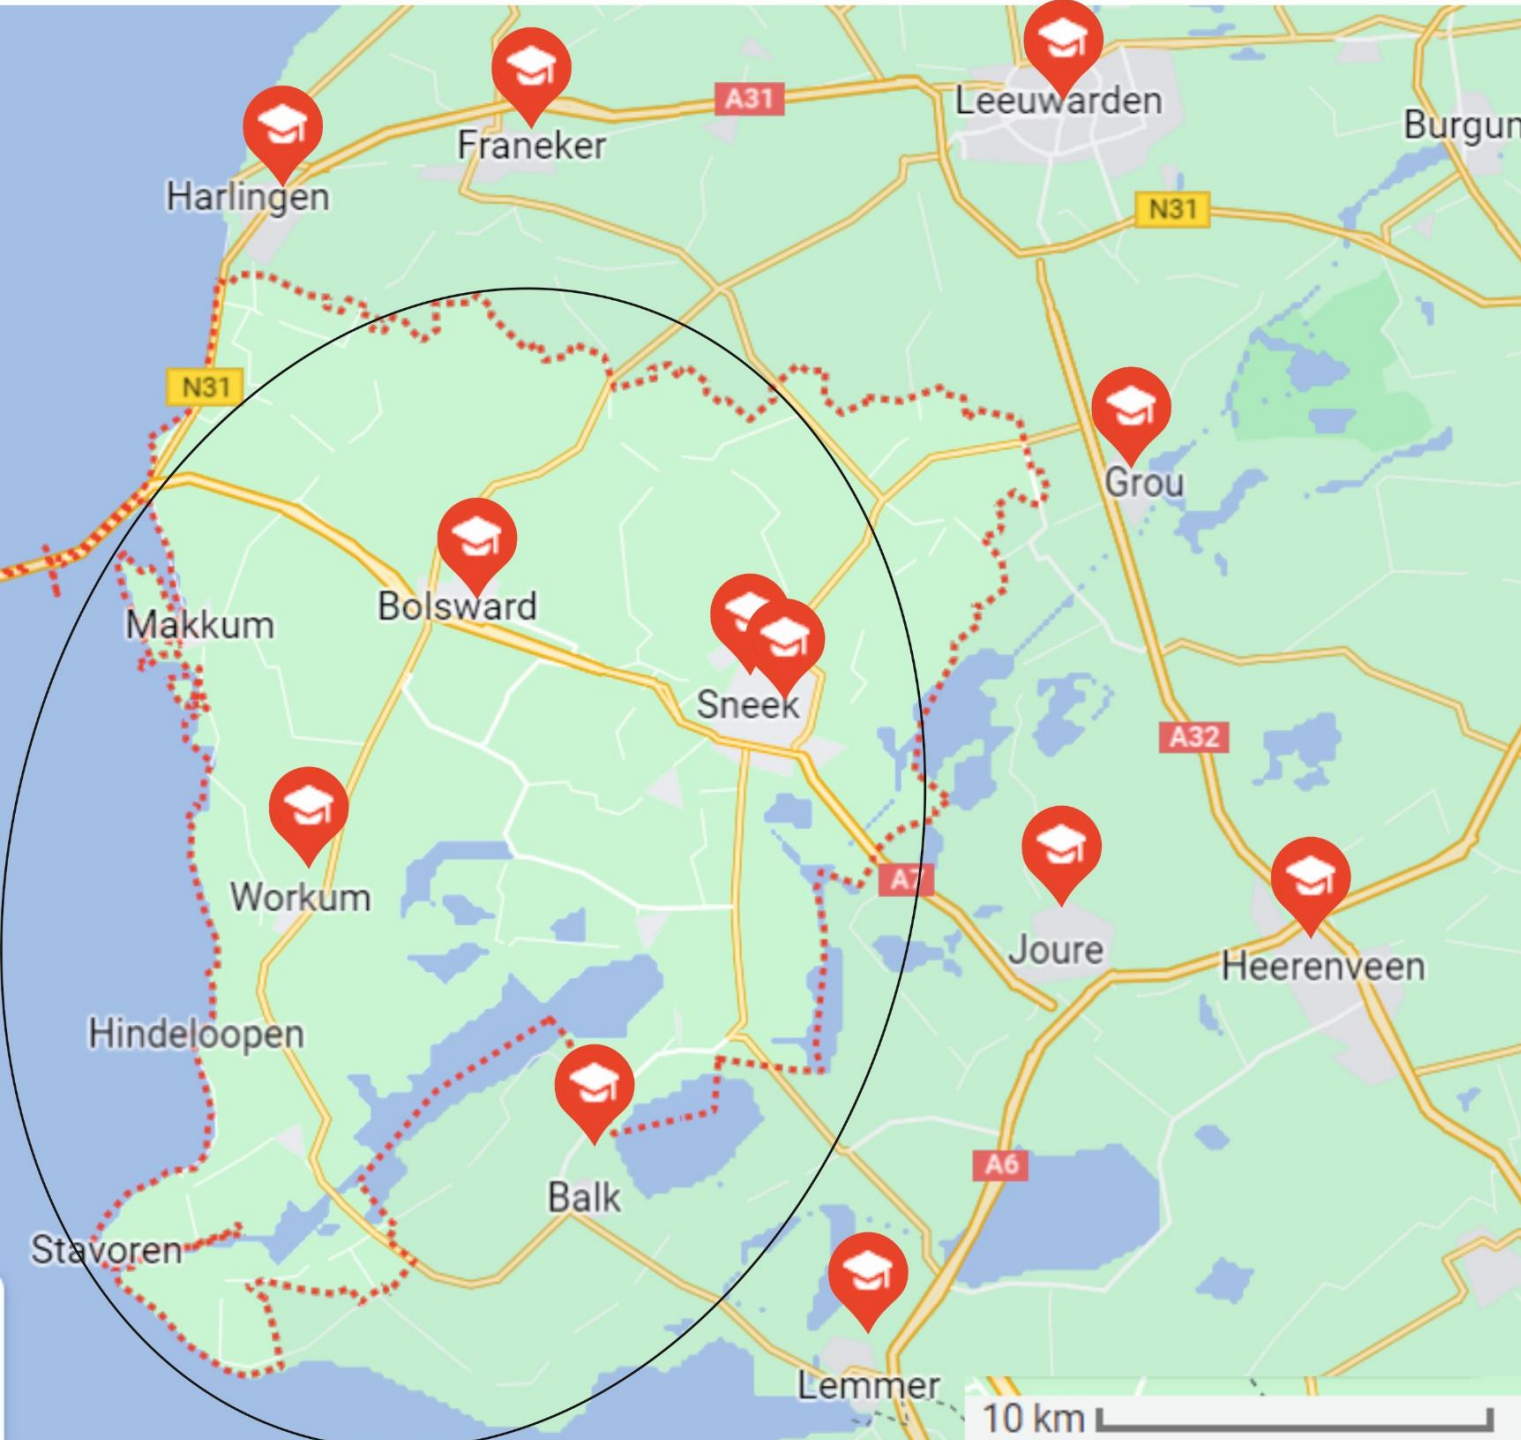

Dr. Mart H. Mojet
RSG Magister
Alvinus, Sneek
The Netherlands

Dr. Kamakshi Rajagopal,
Independent researcher,
SAMAM,
Belgium

Demographic decline

- Zuid-West Fryslân
- Reduction student numbers
- Diverse curriculum

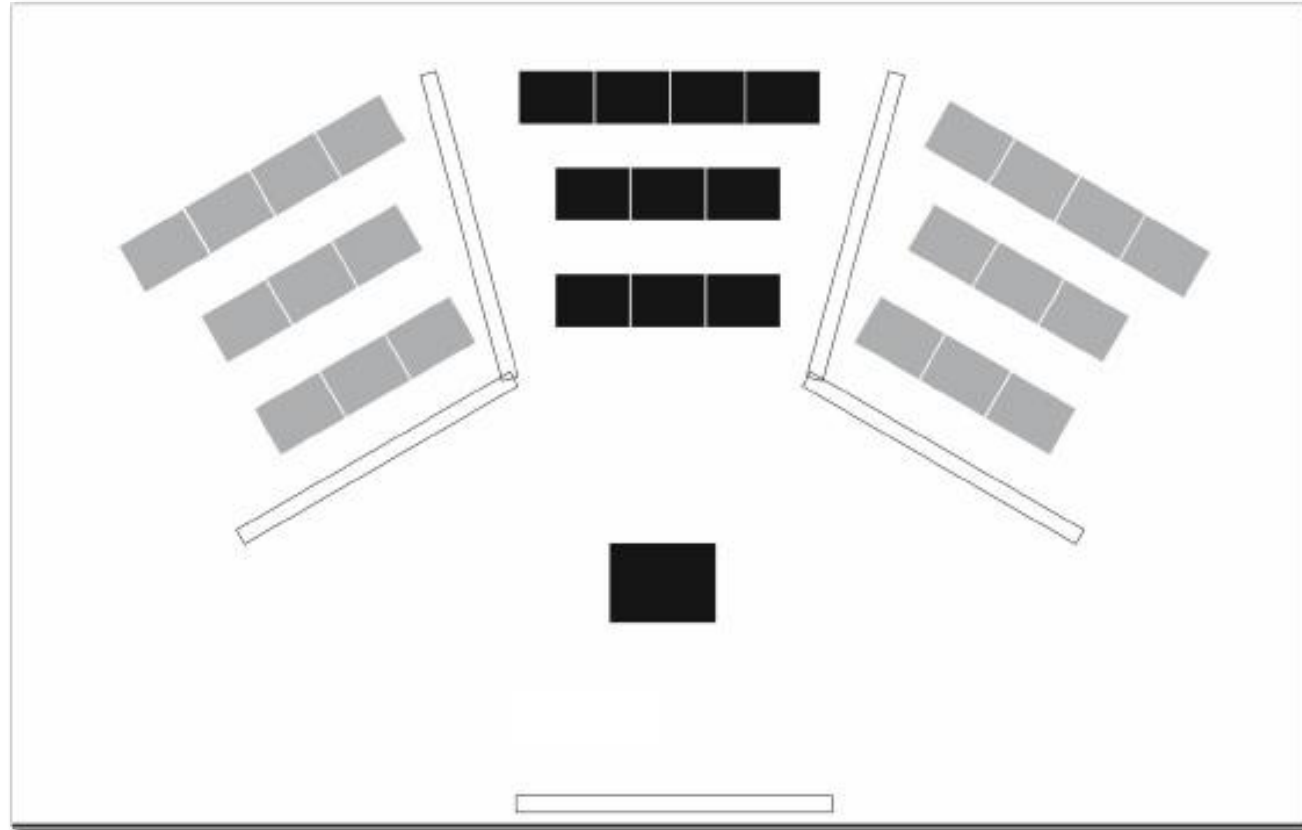

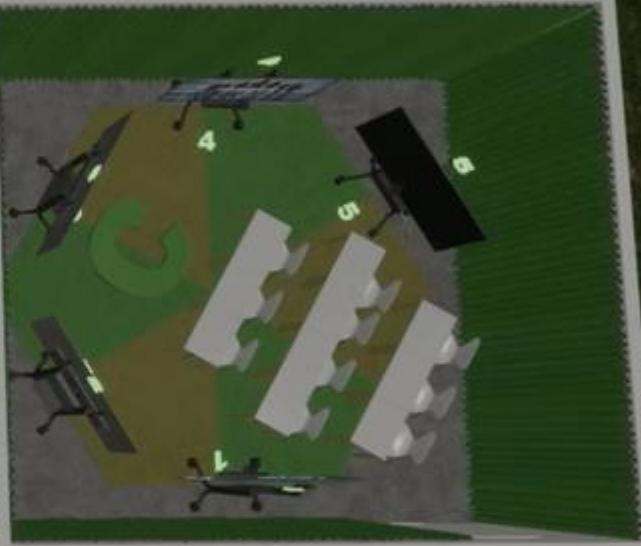

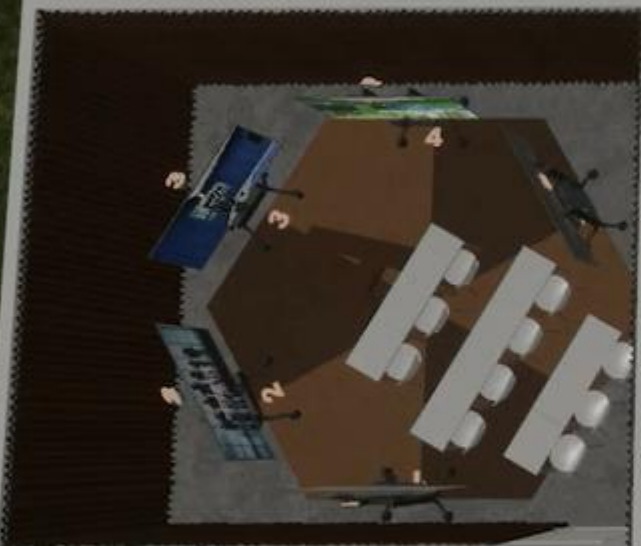

Demographic decline

- Merge to one location ?
- 20 x 30 km
- One-way-travel-time 1 hr
- Virtual campus

Concept

Students 12-18 yrs
Must feel involved

Social presence theory [\(Kreijns et al. 2024\)](#)

Social presence

- Psychological phenomenon
- Perceiving other people as real
- Thru' technology mediated communication

Social presence theory [\(Kreijns et al. 2024\)](#)

Social presence

- Impression we construct of the other person
- Is that other person present in my space?
- Sense of being present in the remote classroom
- Am I present in the others space?

Social presence theory [\(Kreijns et al. 2024\)](#)

Social presence

- Impression we construct of the other person
- Is that other person present in my space?
- Sense of being present in the remote classroom
- Am I present in the others space?
- COVID-time I can see the students, I can teach = send.
The students don't behave as if they feel being taught.

Research project

- To study and enhance social presence theory
- To develop guidelines for teaching in the Virtual Campus
- To set up a professional teacher training programme
