

«Where no video is
deleted ever”

Lecture recordings per week 2019 - 2024

Video assets 2019 - 2024

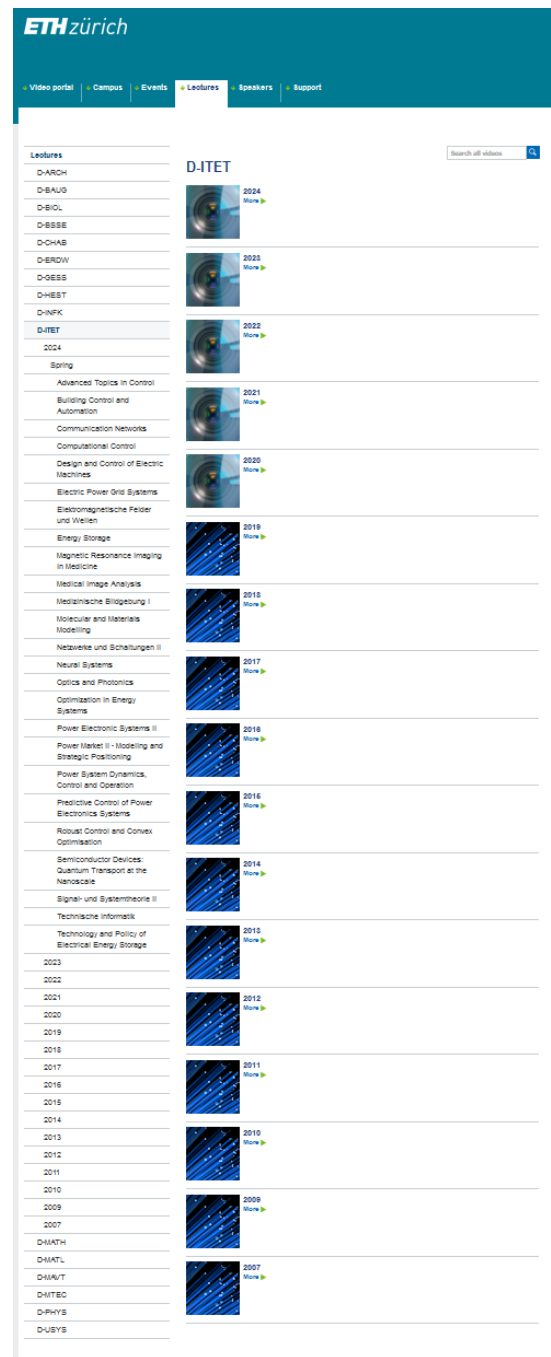

Origin of video assets

- 80 - 90% lecture recordings
- 10 - 20% event recordings
- 5% institutional videos, «archive»

Complexity,

arbitrariness

Reasoning

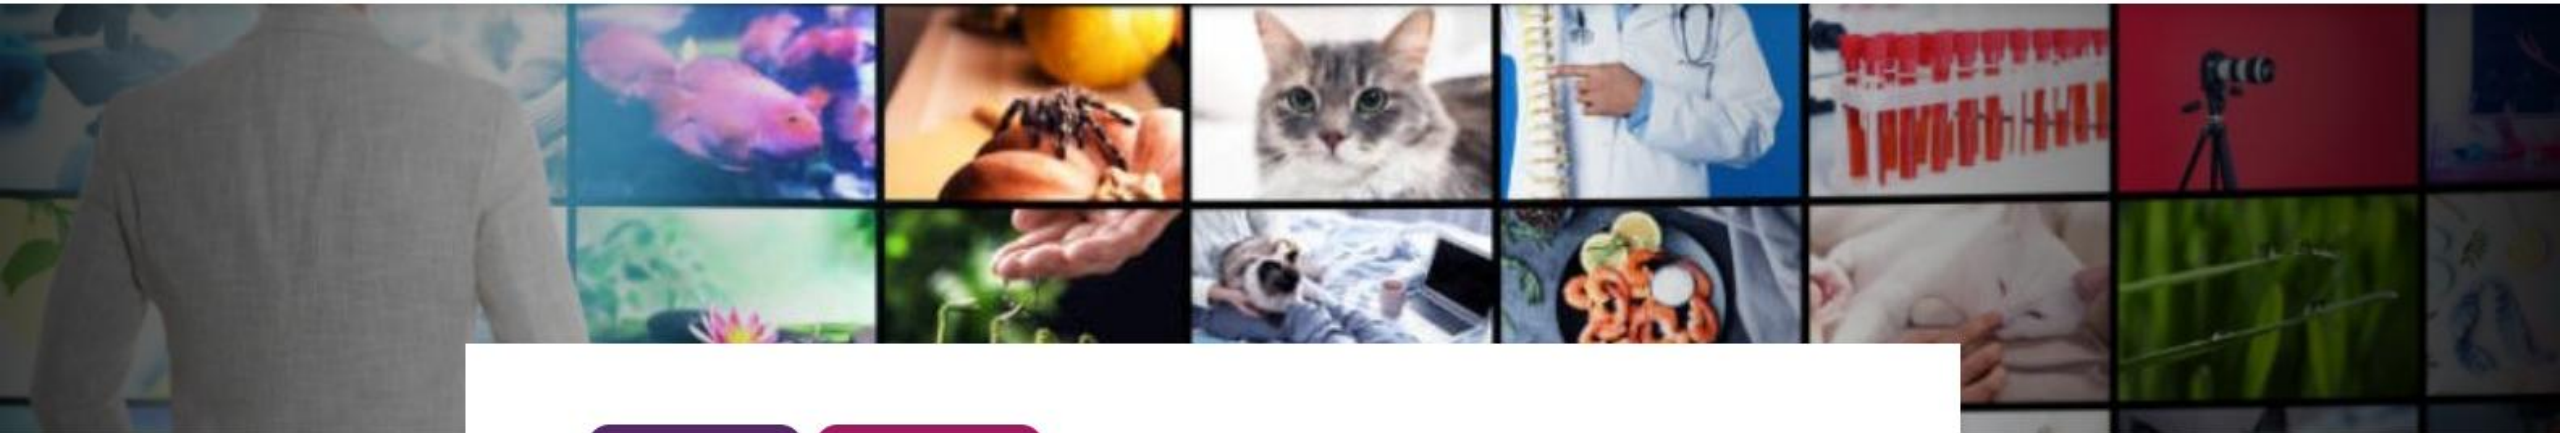

- Complexity
- Costs
- Energy efficiency
- Reduction of legal risks

Goals

- Semi-manual process
- Not driven by user statistics
- Tiering in content and IT
- Still no deletion - «delete to tape»

Timeline

- 2022: Problem identified: Video policy for ETH, life cycle management for Opencast

AV TECHNOLOGIES

HIGHER EDUCATION

How to manage, archive, re-use large quantities of video resources

30 Mar 2023, 14:00 – 15:30

Part of series: [Online Workshops & Seminars](#)

Timeline

Video policy

- 2022: Problem identified
- 2023: Workshop M&L, networking other universities for best practice (thanks, Lana!)
- 2024: Draft,
legal review,
consultation with stakeholders (library,
e-learning, LMS, Zoom etc.)
- 2025: Publication and adoption.

Opencast life cycle management

- 2022: Problem identified
- 2023: File an issue, cf.
<https://github.com/opencast/opencast/issues/5227>
- 2024: Crowd funding, thanks to
 - University of Vienna
 - Academic Moodle Cooperation
 - TU Vienna
 - University of Konstanz
- 2025: Release

Video policy 2025

- Tiered depublication / storage / archive / deletion
- Defined by age, differentiated by content/channel
 - Lecture recordings
 - Event recordings
 - Institutional content
 - Archive
- IT tiering from storage to tape
- New video portal in September 2025:
Reduction of 50% approx. in publication

<https://u.ethz.ch/uale8>

Pending: Tiered ownership (with a focus on lecture recording)

- <https://github.com/elan-ev/tobira/issues/870>
- dcterms:Creator (video): The person in the video (teacher, teaching assistant)
- dcterms:RightsHolder (video): The person in charge (teacher)
- dcterms:Creator (series): Organisation in charge (department, faculty)
- dcterms:RightsHolder (series): Institution (i. e. video or multimedia service)
